COMMANDATION FOR THE SERVICES RENDERED BY ERIC AND CAN DO ORGANIZATION

On the 26th of December 2004 we Sri Lankans had to face a very disastrous Tsunami Tidal Wave situation unheard and unprecedented in our living memory. Thousands of beloved citizens lost their lives, property and valuables as a result of in an instant.

We had to start over all again to rehabilitate our village Mahamodara. At a such time, when we were in great need of help Mr. Eric and CAN DO ORG from America came to our rescue your organization had to construct and rehabilitate Mahamodara village. You have with very great devotion and commitment done very valuable service to the community to start their lives again.

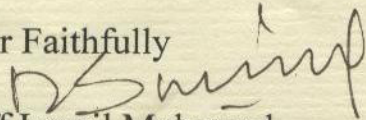

Your organization has provided many amenities to the people here by way of providing household requirements, which are necessary to start normal life again.

Not only that your organization has donated to the Mahamodara Hospital which was also affected by the Tsunami, refrigerators, fans etc. You provide medical assistance to the needy Tsunami affected victims.

On behalf of the people of the Mahamodara village the citizens of Galle city and I as mayor of Galle city greatly appreciate the services rendered to us at our time of need.

Thanking you for your co-operation

Your Faithfully

Ariff Ismail Mohamed
Mayor of Galle City
Sri Lanka
